

# DOCKSHELTER

## DOCK SEAL

Dock seal is widely used at the loading docks, to seal the gap between the construction and the vehicle and to reduce the energy loss and prevent from the birds, insects etc.

Generally speaking, there are three types of dock seals, the fixed foam type, the dock seal with adjustable headpad, and the dock seal with flexible top curtain.

- 1. Head pad
- 2. Wear pleat
- 3. Guide stripe
- 4. Side pad
- 5. Shaft
- 6. Manual chain
- 7. Cushion
